ARCHER

posted Nov 22, 2013, 8:38 PM by Adrian Brightmoore [updated Nov 24, 2013, 7:22 AM]

This filter for MCEdit will create arches along the length of your selection box. The number of arches created is specified by you. You also can configure the material selected.

This filter requested by [CuteLilKitty](#) on YouTube

ARCHER - How to easily make Arches in Minecra...
