## SELECTOR

posted Jun 28, 2015, 6:49 PM by Adrian Brightmoore

This Filter expands the selection box to include all the connected non-air blocks to that block. It will expand the selection box to encompass the object it finds.

To use, select one block only and run the filter.

### SELECTOR MCEdit filter

	GentlegiantJGC_OCSS1_...Adrian Brightmoore, Aug ...	v.1	
	<a href="#">Selector_v1.py</a> (3k) Adrian Brightmoore, Jun 2...	v.1	
	<a href="#">Selector_v2.py</a> (4k) Adrian Brightmoore, Jul 2,...	v.2	
	<a href="#">Selector_v3.py</a> (5k) Adrian Brightmoore, Feb ...	v.1
