## SHEATH

posted Feb 10, 2015, 2:44 PM by Adrian Brightmoore [ updated Feb 10, 2015, 2:47 PM ]

This filter creates cladding for certain blocks in your world.

v2 includes an 'invert' option, suggested by JsKingBoo and coded by martinhanzik on this Reddit thread: <http://redd.it/2p1hp2>

What it does is shown below (v1 behaviour):

|   |   |     |   |
|---|---|-----|---|
|  <a href="#">Sheath_v1.py</a> (4k) | Adrian Brightmoore, Feb 10, 2015, 2:45 PM | v.1 | ↓ |
|  <a href="#">Sheath_v2.py</a> (5k) | Adrian Brightmoore, Feb 10, 2015, 2:45 PM | v.1 | ↓ |
